

PROGRAM MENU

Discover your ability to impact the world through experiential education.

Build personal, community and global leadership skills with JUMP! programs.

JUMP! Foundation creates interactive, empowering learning experiences using activities that focus on personal growth, community building and leadership. We inspire individuals to be actively engaged community members and global citizens. Every program we develop is rooted in experiential education — which means “learning from experience or learning by doing” — and are custom designed according to the needs of your school and the participants.

Regardless of who you are or where you are from, JUMP! can create a program that is right for you. Let’s start the conversation, send us an email at info@jumpfoundation.org.

EDUCATOR PROGRAMS

Designed for school educators, these programs recapture your enthusiasm for innovative education at school. We tackle life and school challenges, and support you in rediscovering your passion. You'll learn from the best -- our expert JUMP! facilitators -- who will guide you every step of the way and encourage you to use your knowledge and skills with confidence and clarity.

TESTIMONIAL

JUMP! has given me a rare experience and definitely empowered me to take more action in school, challenge myself to try working with people who I'm not comfortable with and challenge my fears.

I hope JUMP! continues to do what they do best and inspire students like us to believe that we can achieve whatever we want to achieve. I'm sure my school would like to have JUMP! back for more courses throughout the year.
